|	
1	Upon completing the form, c*lick on GENERATE NOTICE button. If everything is correct, the PREVIEW Button will be enabled.*
2	Click on PREVIEW. If everything is correct click on DOWNLOAD NOTICE PAGE. This will download notice.html in your computer.
3 *(Optional)*	If you have opt out option(s) enabled, click on SUBMIT YOUR SHARING PREFERENCES button on the notice, and once it opens, click on DOWNLOAD OPT OUT FEATURE. This will download optout.html in your computer.
4 *(Optional)*	If you have Mail-In option enabled, click on MAIL IN FORM link (Inside the Limit us tab), and once it opens click on DOWNLOAD MAIL IN FEATURE. This will download mailin.html in your computer.
5	Close the Preview View, and click on the button DOWNLOAD EXTERNAL FILES. This will download a zip folder called "DATA ZIP"
6	Install: Unzip the "DATA" zip folder, put the notice.html, optout.html and mailin.html files (if applicable) inside this folder. This folder is ready to be used on your website. The notice.html is the home page of your notice.
